

10P Power Pedestal

The Electrical Platform for Demanding Outdoor Installations

Outdoor spaces don't pause when demand changes. They need power that can keep up with everyday use and higher-load moments without becoming a concern.

The 10P Power Pedestal expands the Pedoc lineup with a higher-capacity solution rated up to 125 amps. Built for commercial and public environments, it brings power distribution into a single, adaptable unit — configured to meet specific site requirements and reconfigured when those requirements evolve. Suited for new construction and retrofit applications alike.

It holds its place in the system without getting in the way of the work it supports.

**Engineered for the Job.
Configured for Your Project.**

Features & Benefits

► High-Capacity Power

Rated up to 125 amps, the 10P supports high-demand applications where standard pedestals fall short. Food trucks, mobile kitchens, stage infrastructure, marina operations, and heavy maintenance equipment are all within range.

► Heavy-Duty Construction

Type 304 standard, Type 316 available. Maintenance-free and built to perform in demanding, high-use and harsh outdoor environments without compromise.

► Configurable Distribution

Up to three 2" conduit entries support incoming and outgoing feeders. Neutral and ground bars are preinstalled. A 35mm DIN-rail bracket accommodates on-site circuit breaker configuration.

► Secure Access

A lockable hinged cover prevents unauthorized access and tampering. The removable front panel provides clean, safe access for wiring and service.

► Device Configuration

Multiple mounting plate options support up to three receptacles and switches across a range of configurations. Device plates are removable for easy wire access and termination.

► Installation & Options

Available in surface mount or direct bury adapter to match site conditions. Heights of 30", 36", 42" and 48" are offered standard. Cord wrap option available. Finish options include Black, Bronze, Gray, Green, Brown and Custom color matching.

Applications

The Pedoc 10P is built for environments where power access is part of the infrastructure, not an afterthought. One platform. Many environments. Built to meet the specific demands of each:

Municipal & Public Works

Streetscaping, holiday lighting, public space infrastructure, vendor markets, stage and sound systems, and live event power

Campgrounds & RV Parks

Utility hookups, common area lighting, bathhouse power, and seasonal facility operations

Parks & Recreation

Concessions, food trucks, mobile kitchens, electronic scoreboards, seasonal and tournament infrastructure, and portable heating and cooling equipment

Marina & Waterfront

Bilge servicing, fluid transfer, water management pumps, and dockside maintenance

Configure Your Pedestal

Select the options that suit your project.

Height: 30" · 36" · 42" · 48"

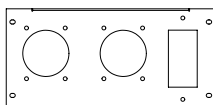

Installation: Surface mount · Direct bury
Unwired — field configured to project specifications

Finish:

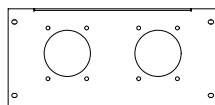

Black	Gray	Bronze	Green
Brown	Brushed SS	Custom	

Options: Cord wrap available

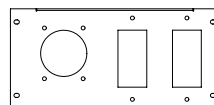

Mounting Plate Style*:

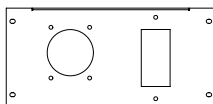

280
50/50/20 AMP or 50/30/20

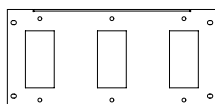

281
50 or 30 AMP

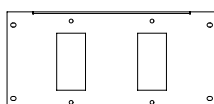

282
50/20/20 AMP or 30/20/20

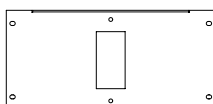

283
50/20 AMP or 30/20 AMP

284
20/20/20 AMP

285
20/20 AMP

286
20 AMP
