

# 10P Power Pedestal

## High-Capacity Outdoor Electrical Platform Surface Mount

### 10P, HINGE TOP, SURFACE MOUNT, 125A

cULus Listed - Standard 1773 | Rated NEMA 3R | ADA Compliant Heights

The Pedoc 10P Power Pedestal is a high-capacity, field-configurable electrical platform designed for commercial and public outdoor installations. Built from heavy-gauge welded stainless steel, it supports feed-through power distribution, DIN-rail mounted circuit breakers, and a wide range of receptacle configurations — all within a single, lockable enclosure.

#### Features and Benefits

- Welded 304 stainless steel construction — 14-gauge body, 7-gauge base; Type 316 available
- Accommodates up to three 2" conduit
- Preinstalled 9-position ground bar and neutral bar
- Preinstalled 35mm DIN-rail bracket for on-site circuit breaker configuration
- Distribution block included; circuit breakers not supplied
- Multiple receptacle mounting plate options — up to three receptacles or switches
- Removable front cover for safe, convenient wiring and service access
- Lockable hinged cover prevents unauthorized access and tampering
- Optional cord wrap

#### Specifications

|              |                                                                                                                                            |
